SECTION II: COMPOSITION/ INFORMATION ON INGREDIENTS

This product has not been tested as a whole for health effects on animals or humans. According to the OSHA Hazardous Communications Standard (29 CFR 1910.1200) any hazardous ingredients that comprise >1.0% of the material and any carcinogenic ingredients that comprise >0.1% must be listed on the MSDS. When individually tested at 100% ingredients in the make-up of this product posed the following health hazards.

None.

SECTION III: HAZARDS IDENTIFICATION

EYES: May cause mild eye irritation.
SKIN: None expected.
INGESTION: Ingesting large amounts may cause abdominal discomfort, nausea and diarrhea.

Most carpet cleaning products introduce substances into the indoor environment; therefore asthmatics and other chemically sensitive individuals should avoid areas where carpeting has been recently cleaned for a period of at least 24 hours. The ECOgent formula, however, has been created specifically for use in establishments where chemically sensitive and asthmatic individuals may be present, and does not itself contribute volatiles to indoor air. It is certified for hard surface use under Environmental ChoiceM criteria PRC-097 "Cleaning Products with Low Potential for Environmental Illness and Endocrine Disruption", and is certified by the EnvirosesicT certification Program as a product not harmful to people suffering from environmental illness. Notwithstanding, wetted carpets may also emit odors due to activation of soiling, residues of previous cleaners, or carpet constituents themselves, and therefore asthmatics and chemically sensitive individuals may still require some caution.

SECTION IV: FIRST AID PROCEDURES
